**Question 3**

When do you use the Emergency Button?

- A) When one of your possessions has fallen off the platform.
- B) When you see someone with a medical emergency.
- C) When you see someone walking on the tracks.
- D) All of the above.

M

You are  
correct!

# Question 4

Why is it important that people keep their feet on the floor and not on the seats in the train or tram? (Click on the option/s to check answer)

A) Because if their feet are on the seats they can't jump up quick enough to get off the train/tram at their stop.

B) Because they can get a fine (\$248 for adults and \$83 for child).

C) For health and hygiene reasons.

# Oops, try again!

Feet should be on the floor and not on the seats.

#### Question 4

Why don't we want people to put their feet on the seats in the train or tram? (Click on the option/s to check answer)

Because they can't jump up quick enough to get off the train/tram at their stop.

Because they can get a fine (\$248 for adults and \$83 for child).

For health and hygiene reasons.

Good! Feet should be on the floor and not on the seats.

Did you find the other corner

12

**Question 5**

Where can you put your bags when seated on the train?

- A) On another seat.
- B) Between your legs.
- C) At your side, on the aisle.

Department of Transport

M

A photograph of a train interior showing rows of seats. Two white arrows point to the floor between the seats, indicating the correct location for bags. One arrow points to the left side of the aisle, and the other points to the right side.

# Oops, try again!

Bags should not be in the aisle. Aisles are for passengers to walk through or to stand if there are no seats left.
